

“The Better Products People”

SILICONE LUBE SS-A

PRODUCT DESCRIPTION:

Roly International SILICONE LUBE SS-A has multi uses. It is a non-oily, highly purified lubricant for sliding parts. It is also an excellent mold release compound for the plastic parts manufacturers and it is a water repellent compound for tents, tires, shoes, etc.

Roly International SILICONE LUBE SS-A contains food grade silicone, thus it is ideal for use on food contact surfaces in food manufacturing facilities to lubricate conveyer belts.

Typical users are plastic molding plants, electronic wire wrappers, business machine repair facilities, food processors, automotive and machine shops.

As all of our other products, SILICONE LUBE SS-A is assured a factory sealed high quality product as it is developed and produced by our own modern manufacturing facility in Ventura, CA, USA.

PRODUCT APPLICATION:

It is best to use Roly SILICONE LUBE SS-A on clean surfaces. Simply apply small quantities where needed. It is more concentrated than other brands so less is needed and money is saved. Of course excessive materials can be wiped off with a clean cloth or paper towel.

Please refer to the brochures for detailed technical information as well as our other fine Roly International products or contact us for any questions you may have regarding our products.
