

“The Better Products People”

## SUPERMICRODUSTER MD-A

### PRODUCT DESCRIPTION:

Roly International SUPERMICRODUSTER MD-A is a pure, nontoxic non-flammable product designed to clean small equipment such as microelectronics, time pieces, photographic equipment and the like by gentle blowing action. The blowing gas is relatively inert and therefore very effective for most applications.

The purity of the product dictates a moisture content of less than 20 ppm. This is accomplished through our unique manufacturing process.

As with all of our other products, SUPERMICRODUSTER MD-A, is assured a factory sealed high quality product as it is developed and produced by our own modern manufacturing facility in Ventura, CA, USA.

### PRODUCT APPLICATION:

To use Roly International SUPERMICRODUSTER MD-A just hold container upright, dial the desired nozzle force at the container valve, aim at components to be cleaned and push button.

**CAUTION:** Do not use on high-heated items. Observe all other cautionary statements.

Please refer to our brochures for detailed technical information as well as our other fine Roly International products or contact us for any questions you may have regarding our products.
